MEXTYPSA

Global solutions based on knowledge

We accelerate investments in sustainable infrastructure, buildings, and urban development

2026

16 YEARS of excellence

MEXTYPSA

Mexican subsidiary of Grupo TYP SA, since 2009 it has established itself as a production center for projects in Mexico, Central America, and the Caribbean.

We specialize in engineering, architecture, industry, energy, and environmental consulting, providing comprehensive solutions that drive infrastructure development.

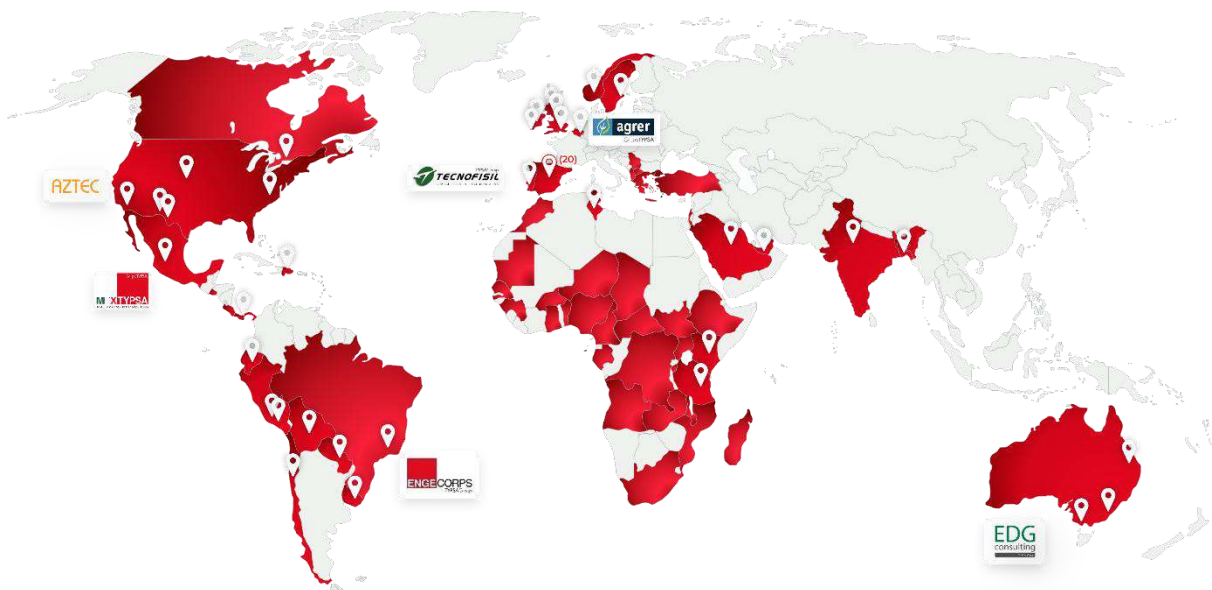

Our experience transcends borders: in addition to leading local projects, we actively collaborate on the Group's international projects in Europe, Asia, and Oceania.

At MEXTYPSA, we are committed to making a positive impact on society and the environment, contributing to the creation of a more sustainable and innovative future.

TYP SA Group: a global engineering consultancy

We have **60 years of experience** transforming the ideas of our public, private, and institutional clients into reality. We have experience in **125 countries** and **56 permanent offices**, contributing global knowledge to provide optimal solutions to specific problems.

Markets

Employees

422 employees

Offices in

- Mexico city
- Querétaro
- Atizapán

Sectors

We are internationally recognized for our high degree of specialization in our main areas of business, with growing interaction between teams to develop holistic and integrated solutions. The analysis of **environmental, social, and governance aspects, as well as research and development activities, are strategic transversal areas** that ensure our services are at the forefront of sustainability and innovation.

Energy

- Wind power 
- Solar 
- Lines and Substations 

Transport Infrastructure

- Railway Engineering 
- Roads 
- Supervision of Transportation Infrastructure Works 
- Strategic Infrastructure Consulting 
- Transport and Mobility Planning 

Buildings and Cities

- Airports 
- Integrated Management 
- Architecture 
- Urban Development 

Water

- Hydraulic Works 
- Ports and Coasts 
- Urban Networks and Treatments 

Environment

- Sustainability and Environmental 

Sector Specialties

Our specialties bring together technical skills that enable us to handle specific, highly complex components within projects.

We integrate knowledge, specialized methodologies, and proven experience to ensure high standards of quality, accuracy, and compliance.

Ranking ENR 2025

N°44

International
Design
Companies

Recognized by **Engineering News-Record (ENR)**, we rank among the best international design firms, reaffirming our leadership and expertise on a global scale.

TRANSPORT N° 25	 Airports N° 15	 Mass transit and rail N° 15	 Bridges N° 18	 Roads N° 19	
WATER SUPPLY N° 27	 Dams N° 15	 Transmission lines and aqueducts N° 16	 Dams and reservoirs N° 17		
SEWER/WASTE N° 23	 Wastewater Treatment N° 15				
BUILDING N° 48	 Sports centers N° 6	 Hotels N° 17	 Educational centers N° 22	 Offices N° 23	 Retail N° 23
ENERGY N° 49					

Engineering Services

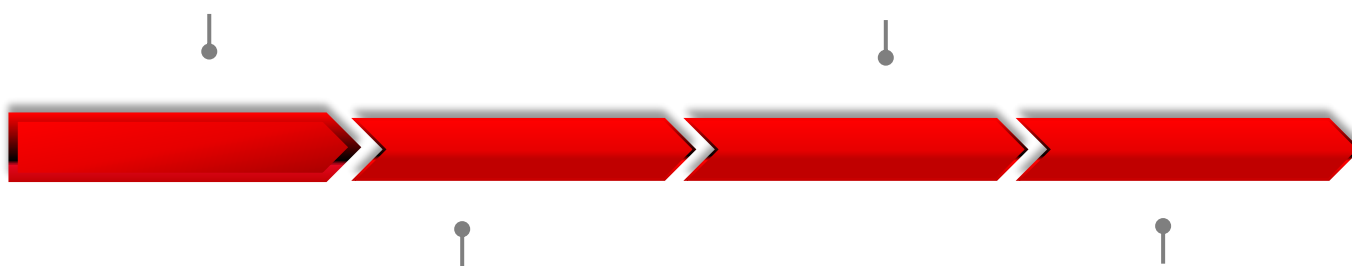

Our services cover the entire project cycle, from investment analysis and project preparation to implementation support and technical assistance.

Tender

- Conceptual projects
- Preparation of tender documents
- Assistance in the tendering and award process

Project Development

- Project management and coordination
- Preliminary designs
- Basic designs
- Construction designs
- Detailed engineering

Studies and Planning

- Master plans
- Feasibility studies
- Environmental and mitigation studies
- Social impact and public participation studies
- Economic and financial studies of investments
- Studies of concessions and PPPs

Construction and Operation Supervision and Management

- Construction supervision
- Health and safety coordination
- Comprehensive construction management
- Maintenance and operations management

Consulting Services

- Advisory services
- Planning and support for sectoral policy development
- Training and capacity building
- Technical assistance in regional and sectoral programs

- Public participation and awareness campaigns
- Organization of seminars and thematic events
- Statistics, inventories, cadastre, and GIS
- Support services in administrative procedures

Technical excellence, financial independence, and corporate integrity

Technical Excellence

Customers and partners worldwide recognize our technical excellence. More than 70% of our staff have degrees in engineering, architecture, or technical studies, and we dedicate more than 1% of our annual revenue to training. With our technical capabilities, we can successfully develop even the most ambitious projects.

TYP SA ensures **consistent service quality across all countries of operation** thanks to its **Quality, Health, Safety, and Environment (QHSE) Management System**, which ensures that technical departments work closely with regional offices through collaborative work platforms. Our extensive regional presence, reinforced by flexible, results-oriented management, enables us to respond effectively and diligently to the most complex challenges.

Financial Independence

We ensure independence in consulting and engineering services through our structure. The shareholders are the company's employees, and there is no ownership relationship with contractors, manufacturers, or financial groups.

The ownership structure and financial strength are one of our fundamental corporate values. With equity capital of over €100 million, the company can finance its assets without increasing long-term debt.

Corporate Integrity

TYP SA's integrity, professionalism, and independence are reinforced by its **Integrity Management System** and an **Anti-Bribery Management System** certified by **ISO 37001**

Committed to sustainability

As a **Participating Entity in the Global Compact** since 2013, it has an Integrated Management System that is fully aligned with the ten principles in the areas of human rights, labor, the environment, and anti-corruption.

We actively contribute to the **Sustainable Development Goals of the United Nations 2030 Agenda** through the TYPASA Foundation for Cooperation, our business areas, and corporate policies.
